Fun activities building healthy muscles.

Nikolas, Darcy, Lucy, Ned and Jaxon using play dough.

Kindergarten students engaging in activities to develop their fine motor skills which in turn helps improve their handwriting, ability to use scissors correctly and manipulate small objects.

Working with play dough strengthens muscle tone in little hands—squishing, squashing, rolling, flattening play dough develops children's muscles.

Plus it's lots of fun!

We are fortunate to have Occupational Therapist, Lisa Hughes, working with different groups every Monday in response to the assessments she carried out on Kinder students earlier in the year.

What's happening
